DETAILED ACTION

Response to Amendment

Applicant's amendment filed 8/2/2004 cancelled claims 1-32 and added new claims 33-53. The new claims represent subject matter which was previously not claimed, therefore the prior art rejections presented earlier are not applicable and have been withdrawn. The prior art rejection in view of Besemer has been withdrawn since Besemer does not teach or suggest a plurality of interconnects as claimed.

Drawings

The proposed drawing corrections are acknowledged and approved by the examiner. Formal drawings incorporating the proposed changes are now required.

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the an apparatus for analysis of a plurality of biochips comprising a plurality of stations, a plurality of thermocontrollers, a plurality of interconnects illustrated as claimed, a signal generator, and a detector, in a single figure must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended."

If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency.

Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 33-53 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the amendment filed 8/2/2004, applicant asserts that support for the new claims can be found in figures 71-73 and pages 10-11 of the specification. Pages 10-11 of the specification contains the **"Brief Description of the Drawings"**.

Where in the "Detailed Description of the Invention" section of the 132 page specification is the now claimed invention described ? Where in the Summary of the Invention" section is the claimed invention described ?

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patent 6,225,059 is considered to be generally related to the claimed invention.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
